**International Youth Off Road Motorsport
comes to the United Kingdom.....**

**FIM INTERNATIONAL LONGTRACK
YOUTH GOLD TROPHY 250cc**

and

**FIM INTERNATIONAL GRASSTRACK
YOUTH GOLD TROPHY 125cc**

24th/25th July 2010

Hosted by

Burton & Leicester Grasstrack Association

at the

**TALLINGTON SHOW GROUND
STAMFORD, LINCS (opp Tallington Lakes)**

We see this as an opportunity for UK and International/European Companies to be part of this event to promote the youth of today as well as advertise their business in association with this International Championship.

It is the first time the 125cc International Championships has been hosted in the UK and it is the inaugural year for the newly formed 250cc Championships giving riders who have never competed abroad to meet their fellow International competitors and go head to head for the Championship title . Riders in both classes are highly competitive and this being the fastest off road discipline, we are sure the event will produce some very exciting and exhilarating racing.

We would like to invite you to work in partnership with us to promote this event – youth are the future of our sport and this is your chance not only to be part of this Championship but to support and encourage youth participation in outdoor and sporting activities. **This is a non-profit making event and all personnel involved are volunteers. Emphasis is made and assurances given to all sponsors that all contributions are used solely for staging this event.**

Your business will be advertised on our Official Website with a link to your Corporate Website, together with National press coverage and it is anticipated that TV media coverage will be present at the event. We are happy to position your company banners in prominent locations around the venue and we will arrange to set aside an area for your company stand. Hospitality will be provided on the day for your representatives with free entrance tickets.

We do hope that you can join us in hosting this International Event and make it one to be proud of.
